

ASSEMBLY INSTRUCTIONS FOR AMANDA DESK <AMD-350>

WHAT'S INCLUDED

1 Carefully remove both bases **(A)** from their boxes and arrange them side by side, about 2 feet apart. The single mirror sides of the bases should be facing each other.

2 Remove the desk top **(B)** from its carton and carefully lower onto the bases **(A)**, making sure that the top fits over the raised surface of the bases and that the top is secure, not sliding or wobbling.

3 Remove the drawer hardware that is installed backwards in the drawers and reverse it so that the metal washer is on the inside of the drawer and the rubber washer is on the outside, in between the mirror and the handle.
